

# Installation Manual for RockBoard® Pedalboard Drawer

Rotating drawer for RockBoard® Pedalboards  
English

Thank you for choosing a RockBoard® Pedalboard Drawer - the simple solution for organizing and storing optional accessories in your RockBoard® pedalboard. The RockBoard® Pedalboard Drawer is designed to store accessories such as cables, picks, wireless systems and more in the pedalboard. With access on the front of the pedalboard, the Drawer provides a safer, cleaner, and convenient place for storage. The Mod Drawer opens and closes using an intelligent swivel locking mechanism.

## Mounting

The Pedalboard Drawer can be installed in the designated MOD slot of a RockBoard® pedalboard (available on all RockBoard® pedalboards except DUO 2.0, 2.1, 2.2 and 2.3). Follow these steps to install the Drawer securely in your pedalboard.

### Step 1

Remove the white rubber ring from the MOD recess of your RockBoard® pedalboard.

### Step 2

Turn the RockBoard® pedalboard upside down.

### Step 3

The MOD mounting screws are self-tapping, they will cut their own threads into the pre-drilled mounting holes in the RockBoard® front. Use a TX10 screwdriver to screw the mounting screws in and cut the threads. Should you do not possess a TX10 screwdriver, a wrench is included with the MOD. For the first couple

of rotations the screws will be difficult, as they must cut the threads into the surrounding material. Please be careful not to screw them in at an angle.

### Step 4

Once the tips of the screws are sticking out on the other side of the holes and the screws become easier to turn, the threads have been cut properly. Now remove the screws again.

### Step 5

Slide the drawer into the MOD slot.

### Step 6

Screw in the mounting screws until the front panel of the Drawer lies flat on the pedalboard housing. For added security, screw on the locking nut on the back.

Your RockBoard® Pedalboard Drawer is now fully assembled and ready to be used for storing accessories and organizing your effects setup!

**Note:** The manufacturer reserves the right to change these specifications without notice.
